11-15-13 Cover Letter to USEPA- Phase 2 Work Plan - Final.pdf
Phase 2 Work Plan.pdf

Chuck, here is the promised Phase 2 coring work plan for the barrier trench alignment area of OU1. I would like to finish this review ASAP (ie. this week) so we can get our comments to Dan Feezor and the PRPs before Thanksgiving.

As with the GCPT work plan, the EPA review team is you and me, with MDNR providing their input as well. I've already put them on notice for the timeline to get this reviewed. We did not have USGS or ORD involved on the GCPT work plan and I don't see a need to involve them on the coring plan.

Sincerely,

Daniel R. Gravatt, PG

Principles and integrity are expensive, but they are among the very few things worth having.

Ms. Tapia,

As per our discussions with Mr. Dan Gravatt attached is the Bridgeton Landfill Phase 2 Work Plan which discusses the core samples for the Area 1 investigation after the GCPT investigation is completed. We will be proposing precise locations once we have concluded the Phase 1 - GCPT work. Therefore, we will be submitting a revision at a later date.

If you have any questions, please contact me.

Thank you,

Dan Feezor
